PROFILE

Hello, I'm Dhanush Selvam, a student at FSSA. I've completed 15 years of schooling, gaining valuable life lessons along the way. After completing my 12th grade, I decided to chart a different path, and it was my brother who introduced me to the Freshworks Software Academy, which I then joined. Here, I've not only learned about technology but also acquired valuable life skills. Thank you for getting to know a bit about me and my journey.
